WHY CHOOSE ENGINEERED LIFTING SYSTEMS?

1. Engineered Lifting Systems (ELS) is a company committed to quality with over 35 years of fabricating experience.
2. Our *sales staff is knowledgeable* and willing to assist you in determining the optimal solution to your material handling concerns.
3. ELS holds a *"Certificate of Authorization"* from the Professional Engineers of Ontario.
4. ELS has *Licensed Professional Engineers* on staff. Our engineers bring experience from various fields including, mechanical, electrical and structural.
5. ELS is *CWB* (Canadian Welding Bureau) certified to CSA W47.1.
6. Our shop boasts custom removable stands for *box girder fabrication*.
7. Excellent hoist offerings, with many *standard hoists in stock*.
8. We offer *turn-key solutions* to your material handling needs.
9. We design to *current applicable standards*.
10. Excellent *supplier relationships*, allowing ELS to better offer its clients economic solutions that perform.
11. Ever growing *standard product lines*.
12. Years of experience at developing *custom solutions* and prototypes for applications that fall outside the standard product lines.
13. Broad range of *industry experience*, including; automotive, electronics, air transportation, primary metals industries, and fabricated metals industries.
14. ELS considers *safety as central* to the company's success. Corporately ELS has ensured that its employees remain knowledgeable in work place safety (including the Occupational Health and Safety Act) and hold valid certificates in areas/functions that are relevant.
15. Our *workers are insured*, for general liability, accident coverage, and Engineer's Professional liability.
